## Christmas Break Health Project

**Introduction:** Today in health we learned about advocacy.

*Advocacy: taking action in support of a cause.*

Directions:

You must think of a cause that you would like to be in charge of and make a poster illustrating the following things about that cause:

1. Describe **what** the cause is and **what/who** it is designed to help
2. Describe **why** a person should support that cause
3. Describe **where and when** people can meet and **what** you all are going to do to support that cause
4. Include pictures, color and creativity!
5. You may make it on the computer and glue it onto construction paper or you can make it by hand
6. **This counts as a health test grade so work hard!**

**Some causes worth considering:**

- Feeding people at a homeless shelter
- Working with your church to help those in need during the Christmas season
- Helping our environment (Global Warming, air pollution, etc...)
- Raising money for somebody who is sick and in need of help
- It could be ANY cause that you would like to be a part of.

**Grading Requirements:** Total Points → 100

-Include all of the descriptions above (#1-3) → 80 points

-Include pictures, color, and creativity (#4) → 10 points

-Neatness → 10 points

This project will be due the first day you have health after break!

**7AA: January 5<sup>th</sup>**

**7A: January 7<sup>th</sup>**

**Each day that it is late, 5 points get subtracted from your total grade!**
